

As a Portland resident, I listen to K-LOVE more than any other radio station. On my way to work, K-LOVE's programming encourages me; and helps me to face and respond to the stressful environment in which I work. I know that the nursing staff with whom I deal benefit from my exposure to K-LOVE. In turn, I am certain that a number of those nurses exhibit a more positive attitude when interacting with their patients.

K-LOVE has a positive influence on our community, encouraging residents to support local ministries; which in turn support those in need in our community. Healthy, family values are supported and uplifted on K-LOVE. Displacing K-LOVE for an LPFM station would be a detriment to our city.

I once worked for a local hard-rock radio station. I saw first hand how much influence a station has on the community in which it broadcasts. I believe it is much more beneficial to our city to promote a station that encourages positive behavior, and has a proven track record; than to allow it to be replaced by an LPFM station. Please do not force K-LOVE off the air!
